

DESCRIPTION OF THE FIRST PROJECT TRACKING

The student is asked to prepare a simulation in Cisco Packet Tracer, meeting all the individual requirements that apply, which include:

- IP addresses that you can use (no others are allowed)
- Number of trunks
- Number of VLANs
- Total number of PCs
- Number of EtherChannels

Delivery is carried out by sending the PKT file (file with .pkt extension).

It is an essential requirement that a note with the student's name be included within the work area.

IMPORTANT: Upload the .pkt file directly here. GOOGLE DRIVE, DROPBOX OR SIMILAR LINKS ARE NOT ACCEPTED FOR ANY REASON.
